Sewer Permit Application

Please fill out and return to the Utility Billing Office:

Applicant's Name: _____ Date: _____

Address: _____ City: _____

Subdivision: _____ Lot No.: _____

Phone: _____ Legal Description: _____

By signing below, I attest that I have complied with the procedures and agreements necessary for the installation of a sewer connection to Chandler Utilities Wastewater Treatment facilities. These facilities are located in Warrick County in the State of Indiana. All connections shall be made with at least all minimum Town, County, and State Standards.

I understand that at the completion of the installation of the sewer lateral by a qualified plumber/contractor, the Maintenance Facility must be contacted for an inspection before the line and tap are covered. The entire site and lateral must remain visible and accessible until the inspection is completed. Please call to schedule an inspection in advance with an estimated time of completion, followed up by a call when you're ready for inspection; this allows us to complete the inspection in a more timely manner.
