

## **Boil Water Advisory**

Chandler Utilities is issuing a Boil Water Advisory for the following area: a section of Warrick County near Newburgh that is bounded by the Ohio River on the south, State Road 662 on the north, River Bluff Drive on the west, and Pollack Avenue on the east. There are an estimated 243 Chandler Water customers affected by this Boil Water Advisory.

This precautionary measure is recommended due to a water main break within the above-mentioned service area. It is recommended that all cooking and drinking water in the affected area be brought to a complete boil for 5 minutes before use. Please continue to boil all cooking and drinking water until we notify you that it is no longer necessary.

We appreciate your cooperation during this time and will update you as necessary. If you have any questions concerning the drinking water problem, please contact the Chandler Utilities Maintenance Facility at 812-925-6213.
